The Maryland Senator Proves That He Had Repeatedly Assented to the Bill.

THE WAR IS ON NOW IN LITERAL EARNEST

Memorable Scene in the Senate in Which the President of the United States is Held Up to Scorn by Leading Members of His Own Party, Who Convict Him of Deceit, Perfidy and Double Dealing-Packed Galleries Applaud the Telling Points of the Maryland Orator and Tender Him an Ovation at the Conclusion of His Masterly Effort.

Washington, July 23. OT for many a year has the senate chamber, rich as it is in historic reminiscences, witnessed a more surring spectacle than that which took place there today. The knowledge that Senator Gorman was to take the gauntlet thrown down by President Cleveland, attracted to the capitol a large part of the visitors and people of leisure who take delight in the combats of political gladiators. Mr. Gorman was in his best fighting trim. Without a note or memorandum to refer to, or to refresh his memory, he exhibiting powers of oratory which few, even of his warmest political admirers, would have given him credit

While unsparing in his attack on the president, he directed his efforts principally to sustaining the proposition ore. that the conference as fixed up by Senators Jones, of Arkansas, and Vest, of senate, had been admitted on several occusions to the secretary of the treasury and the president and had received the approval of both of them, and that it was not until after the publication of the Wilson letter that the hostility of the president to the senate till had been known or suspected. Mr. Gorman's assertion on that point were fully corroborated and with all necessary detail by Senators Jones and Vest, and also by Mr. Harris (Dem., Tenn.), who related two interviews which he had with the president, the last of them while the bill was in conference from which he had come away with the distinct understanding that the president was strongly in favor of the bill as it passed the senate, 'if no better terms could be obtained," Senator White, of Californis, made a short speech in favor of the motion to insist on the senate amendments and to agree to further conference and then without action on any of the pending motions, the senate at 8 45 adjourned.

THE BATTLE IN DETAIL.

The Gentleman from Maryland Starts

the Contest Going. Washington, July 23 — Senator Voorhees, at 12.22, call-d up the conference report on the tariff bill, and Senator Gorman began speaking the free list; but he had told the presion the subject. In an impressive manner the Maryland senator told of closed factories and suffering mechanies, and said further suspense would he destructive. It would be detrimental to the Democratic party, which now controlled every branch of the government, and he hoped the situa tion would be met as became American senators and as breame patriotic citizens. He would say now, as he would tell every Democratic senator privately, that no matter at what sac rifice to state interests the paramount duty of every Democrat was to keep

the party in power.
Mr. Gorman made reference to President Cleveland's letter to Chairman Wilson as the most unusual, the most unwise letter ever penned by a president of the United States. On account of this letter he was forced to talk of pri vate party matters in public. The honor of his fellows also made him make the statement he would make. Telling of the tariff bill conference, Mr. Gorman said every Democratic senator had been consulted with a view to reconciling their views. Two of the Democratic leaders had conferred with the president knowing that the bill would not What the president had said gave him right to make the statement, as he did at the time that the senate bill would receive the endorsement of a Demo-

The same could be said of every Democratic senator, for a conference committees, he said. compromise measure could not be satisfactory in every particular to every-body. It was believed that every cabi-net officer, every Democratic senator, and the president himself, were satisfied with the compromise bill as the best that could be had. Mr. Gorman called on Mr. Vest (Dem., Mo.), to verify this broad statement.

Amid an intense silence Mr. Vest somewhat hesitating arose and told what he knew of the matter. Mr. Vest said Secretary Carlisle had told him that the greatest calamity that could happen to the Democratic party and to the country would be the failure to pass a tariff bill. Senator Jones had seen the president and Secretary Carlisle and both had talk him that the that the transfer of the president with nothing but the kind st testings." [Subdued laughter.]

Mr. Gorman complied the president with nothing but the kind st testings." "I told Senator Jones," said Mr. Vest, "that if we won this fight we must have the president behind us." Mr. Jones assured him that this was a fact and he (Mr. Vest) gave up his personal views, and for the first time, when he heard of the president's letter to Chairman Wilson, he learned that the president was against them [Laughter and applause.]

CLEVELAND AS A TURN COAT.

Corroboration of Statement That He Had Approved the Bill.

Washington, July 23 .- Mr. Jones, of Arkaneas, substantiated all that Mr. Vest had said and gave some more details of his conferences with Secretary Carlisle and the president. In a day or two after his conference with Mr. was a wise thing and a proper thing

Mr. Vilus asked Mr. Jones if there was anything in the amendments proposed, which was the subject of conference with the secretary or to which

"In every conversation I had with the president," Mr. Jones promptly re-"coal and iron or-were menplied. Missouri, and as finally passed by the tioned." [Loud applause] In every one of these conversations the president said he earnestly desired and hoped that in the progress of the compromise, free coal and free iron ore could be brought out of it. But nowhere in no solitary word was coal and iron ore on the dutiable list complained of. [Renewed applause.]

HARRIS CORROBORATES GORMAN Mr. German called on Mr. Herris for an explanation of his understanding of the president's policy. Mr. Harris said that he had had a number of conversations with the president on the subject of the bill and its general management, and while he would not un-dertake to reproduce the language of the president in any one of these interviews, he would say that he understood most distinctly, as the result of each of which the committee had consented to dent any more than it was satisfactory to himself, but because it was a great

while it was before the conferees he had another interview with the president and he came away with the distinct understanding that the president destred that the bill as it passed the senate should be agreed to, if no better terms could be made. The president had expressed to Senator Jones and himself the wish that some way could be arranged to put coal and iron ore on dent that he feared that it was impossible to do so. And his understanding was, as the result of that interview that the president was most distinctly in favor of passing the bill as it passed the senate if no better terms could be

Mr. Gorman asked Mr. Harris whether any suggestion had been made to him by the president or from any other quarter that the duty on coal or on troa ore was a violation of the Democratic principle and that senators who voted for it had been guilty of perfily. Mr. Harris replied with great earnestness and strong em-

phasis:
"No such suggestion had ever been made to me by the president or by any cabinet officer or by any human being.

GREAT BEND IS FLAME SWEPT.

Fire Devastates the Central Portion of the Business District.

Special to the Scranton Tribune. HALLSTEAD, Pa., July 23 -About o'clock tonight a fire was discovered in the Plain-Dealer block in Great Bend which destroyed that block, Todd's harness shop. Gilbert's drug store, Forsyth's bottling works, S. B. Mun-son's shoe shop. Chichester's jewelry store, Mrs. O. Stevens' millinery store and the dwelling houses of John Hannon and Mrs. Michael Barry.

The Hallstead Fire company prompt ly responded to the first alarm and did good work, but with the appliances at hand was unable to do more than check the flames in certain quarters and confine them to the district indicated above. A conservative estimate of the loss places it at \$20,000. The origin of the fire is not known.

GRAPE VINE TIP NOT STRAIGHT

Brother of the Nurse of Baby Ruth-Nealon the Man.

Special to the Scranton Tribune. CARBONDALE, July 23 .- The long drawn out fight for the Carbondale ostoffice is at an end. Information was received in this city today from Washington that President Cleveland had at last made up his mind concerning the proper person to draw the \$2,200 salary that goes with the honorable title of postmaster of Carbondale. That puts an end to what has been long, drawn-out and somewhat bitter Assistant District Attorney fight. James J. O'Neill was, by a large majority of the people of this city, looked upon as a sure winner, but there were not a few who were willing to wager anything from "a cold bottle" to a ride

to Monkey Run that J. W. Kilpatrick would be Grover's appointee. A few weeks ago a Scranton paper printed a "grape vine" dispatch from Washington containing a straight tip that the next postmaster of Carbondale would be a youth whose claims to fame and a postoffice are based upon the fact that his sister was Baby Ruth's purse. The statement created no little

amazement and amusement. Congressman William Henri Hines, of Luzerne, was Mr. Nealon's politica sponser, and he appears to have had a more substantial grip on the presi-dent's appointing hand than the backers of the other candidate, not even excepting Ruth's nurse.
